

Keeping your frontline safe

Your employees can't always remember to do the right things in the right moments. So they make dangerous and costly mistakes.

There's a better way

The Axonify Microlearning Platform engages your workforce with the training they need so they remember to do the things that keep them safe on the job every day.

Here's how:

Designed for the way people learn best

Our platform continually reminds your people of the top things you need them to know, using focused, bite-sized bursts of information to make learning memorable.

Always adapting, just like your organization

Our adaptive algorithm fills each employee's knowledge gaps with the personalized information they need to perform their jobs safely and effectively.

Built to keep bringing them back

Our user motivation tools tap directly into the innate desire to self-challenge, meet goals and win. This hooks your employees to return to the platform again and again.

Smart enough to prove ROI

Our built-in learning attribution engine harnesses the power of big data to show how using the platform directly impacts metrics that matter to your business, like improved safety ratings and operational efficiency.

Reach them on the front lines. And keep them coming back.

Axonify slips seamlessly into each employee's workflow, on any device, for 3-5 minutes a shift.

Getting the right results requires the right content.

What's right for one organization might not be right for you. That's why our experts create custom content to fit your organization's needs. With a growing library of common safety topics and customized training material, you'll never have to worry about content again.
